Please answer all questions Struggling to finish a level in Wordscapes? Look no further, we have ALL of the Wordscapes answers and update them on a regular basis. We're the original Wordscapes cheat site and still the best with over 19,000 Wordscapes answers! What is Wordscapes? Wordscapes is a crossword-styled puzzle game where you create words out of a set of letters. With those letters, you swipe to connect them into words which, if valid, will fill out the crossword. Each level has a new set of letters and progressively gets more difficult. The game was created by PeopleFun and released on Android and iOS. Over the years, it has gained over 10 million downloads and has consistently been one of the top word games available on mobile. Its thousands of levels, addictive gameplay, and relaxing experience are what attract so many players. How to Play Wordscapes To play Wordscapes, swipe the letters together in the circle to connect them into a word. If the word is part of the crossword, it will automatically fill in its position. This makes it so that the more Wordscapes answers you find, the easier it will be to complete the level. If you are having a difficult time finding a word, you can use a hint by spending a certain amount of coins. Currently, there are three different types of hints. The Lightbulb makes a random letter appear on the board, the Firework explodes and shows multiple random letters, and the Bullseye allows you to choose where the letter will be revealed. If you don't have enough coins, you can buy more in the Shop or earn them for free by watching a video or doing a survey. Plus if that's not an option, try using the Shuffle button to mix up the letters. This can help you see the letters in a different way to spot a new word you missed before. Wordscapes Help and Tips Completing Levels The levels can get very tricky down the road, especially when it reaches up to 6 and 7 letters. So one way to make finishing them easier is by first focusing on the shorter words. This way the crossword will be more filled out to help you see the letters that make up the longer words. As well, try making words you have already found to be plural by adding an "s" at the end. There can be many instances where this is the case for longer spaces. Also, make sure to utilize the shuffle and hints if you have enough coins to spare. If you want the fastest and easiest way to finish a level you can use our Wordscapes cheat to find all the Wordscapes answers. Just navigate to the level or use the search bar at the top. At the answer page it will show you all the words, where they are in the crossword, and all the bonus words. Getting Coins Coins can be quite valuable when the game gets tough, particularly when you have run out of them. So when you first start the game, try not to use any coins until it gets up to at least 5 or 6-letter words. You'll want to have as much as possible when the game gets at its most difficult. One of the best ways to get coins during a level is by solving the challenge word and finding bonus words. It's not the most effective to obtain a large number of coins like from watching videos. But it's a great way to gain more over time when done at each level. Another good way to obtain free coins is by completing the Wordscapes Daily Puzzles. Doing this everyday will progressively reward a higher number of coins. However, it depends on how many stars you get from the level. One way to guarantee that you get the most stars is by completing the crossword in the order of the butterflies. And if that gets too difficult, you can go to our Daily Puzzle answer page which shows all the Wordscapes answers with their placements on the board so you can solve each word where the butterfly is. Wordscapes Bonus Words Bonus words in Wordscapes are extra words in a level you can find for coins. They are not required to complete the level and are redeemed when you finish. Each bonus word found will reward one coin. That may not seem like very much. But some levels can have upwards of 15 bonus words! If you'd like to find them all you can view the answer page of your level on our site. There it will list all the available bonus words so you can get the most coins possible. Wordscapes for PC and Online If you don't have a mobile device available or just want to play on your PC, there's a great way to play the game with Facebook. Just head over to the Wordscapes Facebook page and click on the blue button that says Play Game at the top. This will take you to a new tab with the game laid out just like the original. It's a super simple way to play online and will save your progress with your Facebook account. Don't worry, our Wordscapes cheats still work for the Facebook version! Wordscapes, published by PeopleFun, is more than that, though! A big difference is that you can't just throw any old letters in any old order on the board. Instead, Wordscapes presents players with a wheel of letters and a crossword-like interconnected set of blanks. Fill in the blanks with the letters. It's as simple as that! Well, no. If it really was as simple as that, it wouldn't be any fun. And it wouldn't be much of a challenge. Instead, Wordscapes requires tough lateral thinking and an ever-growing vocabulary. Like a crossword puzzle, Wordscapes requires you to provide specific words to fit specific blanks on the board. Unlike a crossword puzzle, there are no hints to guide you. So, there is a definite sense of trial and error here as you try to find any and all words that may fit into those spaces for each Wordscapes level. How to Play Wordscapes Naturally, the first thing you'll need to do to play Wordscapes is to get the game itself. The main Wordscapes game and Wordscapes in Bloom (which is the same game with different background images) are both available for Google Android and Apple iOS devices. Find them in the Google Play Store and Apple App Store, respectively. Many people play Wordscapes daily on their mobile devices. But, did you know you can play Wordscapes on your computer too? You can download Wordscapes on your PC or play Wordscapes online with no download, if you prefer. To play Wordscapes: 1. Launch the Wordscapes app. 2. Tap on the level number in the middle of your screen. 3. You'll see the crossword puzzle-like board in the top half and your wheel of available letters in the bottom half. 4. Swipe between the letters to connect them and form words. These words must be at least three letters long or, in some levels, at least four letters long. 5. If the word is in the puzzle, it'll appear in its place. 6. Valid words that aren't in the puzzle count as Wordscapes bonus words. These earn you bonus coins. Use coins to buy additional power-ups. 7. Surrounding the wheel are the icons for Shuffle, Bullseye, Lightbulb, Rocket Pop and Spelling Bee. Shuffle rearranges the letters. The first of the Wordscapes power-ups is the Bullseye; it reveals any one square in the puzzle. The Lightbulb reveals a whole word. The Rocket Pop reveals multiple letters at random. And the Spelling Bee reveals letters and drops coins. 8. The level is complete when you find all the Wordscapes puzzle answers and completely fill the board. 9. There is no time limit, nor are there any penalties for trying to play incorrect words. So, let's say for example that you're on Wordscapes level 124. That's in the Arch pack as part of the Canyon group of Wordscapes levels. For level 124, you have the letters EGMORU. Among the 16 required Wordscapes puzzle answers for this level are EURO, GERM, OGRE and MORGUE. The word MORGUE includes the O from EURO, and it also intersects with GERM, sharing the letter G. Bonus words include ERG, ERGO and GOER. Our convenient Wordscapes answer pages not only list all the words you need to play (plus bonus words), but they also display the words on the level's board layout too. That way, you know exactly which word belongs where. Whether you're stuck on Wordscapes level 85 or need help with Wordscapes level 230, we've got the full solution for you. Wordscapes Tips and Tricks Need some Wordscapes help to pass a tricky level? There's always our handy-dandy search tool above where you can find the full Wordscapes answers to any level in any pack or group. That's probably why you're here. But, before you jump straight to the complete Wordscapes cheat list, you might want to give it a go on your own. Here are some big Wordscapes tips for pwning even the most pernicious puzzles in the popular word game. Go Big, Go Home Play for the longest word first. Like a crossword puzzle, often the longer a word is, the more letters it pops into the other words. With a little luck, you can work out an entire puzzle in one big play. Leverage that interconnectedness in your favor. Iterate, Conjugate, Dominate! If a singular word doesn't work, try plural. If a plural word doesn't work, try singular. Even when the singular word works, always try the plural if you've got an S. Likewise with the other way around. CUP could be CUPS, just as HATS could be HAT. And if a verb doesn't work, see if you can swipe in an -ed, an -ing, or an -s. BEND may also yield BENDED, BENDING or BENDS. Go Nuts With Every Combo Well, not completely nuts. Don't paint on a bunch of woad and sacrifice your phone to the God of Word Nerds. But, do try absolutely every possible combination you can think of. If you know you need a 3-letter word that starts with C, it's a good idea to try every consonant-vowel-consonant combo you can find. Then, try consonant-consonant-vowel combos too, like CRY. Anything that even looks remotely like a valid word (and even if it doesn't) is worth a try. Remember that every real word is worth a coin, even if it doesn't fit into the puzzle. Play all the Wordscapes answers for maximum coinage! Winning Wordscapes Tournaments Getting in the swing (or swipe!) of things and ready to tackle the next challenge?
